CNC Routers

CO2 Laser Engravers, Digital XY Flatbed Cutters

OBSERVED AT

APPPEXPO 2014

Nicholas M. Hellmuth

Introduction

CNC Routers, CO2 Laser Engravers & Digital XY Flatbed Cutters

CNC Routers come from the era of mechanical kinds of machines. Digital XY flatbed cutters are software driven (software + firmware). The primary brands of digital flatbed cutters are Zünd and Kongsberg.

CO2 laser engravers use a laser light to burn or melt a material as an engraving. But they can also cut material as well.

APPPEXPO has lots of CNC routers and lots of CO2 laser engravers: over 90% are made in China. For XY flatbed cutters, these tend to be made in Europe.

You will see more brands of CO2 laser engravers and CNC routers at APPPEXPO in Shanghai than at any expo in Europe or the Americas (North, Central, and South America). Actually there are more brands of these cutters and engravers and routers at Shanghai than at all American and all European signage expos put together.

Although we at FLAAR Reports focus primarily on digital equipment, there is still a huge market for CNC routers, CO2 laser engravers and a growing market for digital XY flatbed cutters.

For many years APPPEXPO was in July (so a tad warm). For 2015, the APPPEXPO will be in March (so no more hot weather).

Shanghai is a great place to visit, both for you and your colleagues. Actually Shanghai is a nice place to bring your family as well.

If you are a distributor, you can use APPPEXPO to decide which brand to sell in your home country.

If you are an end-user, you can see all the options at APPPEXPO 2015, in March, in the frankly impressive city of Shanghai.

PLEASE NOTE

This report has been licensed to Shanghai Modern International Exhibition Co., to distribute, since they are the organizers of APPPEXPO (Advertising, Print, Pack & Paper Expo), Shanghai. But this report has not been licensed to any printer manufacturer, distributor, dealer, sales rep, RIP company, media or ink company to distribute. So if you obtained this from any company, other than APPPEXPO, you have a pirated copy.

Also, since some reports are occasionally updated, if you got your version from somewhere else, it may be an obsolete edition. FLAAR reports are being updated all year long, and our comment on that product may have been revised positively or negatively as we learned more about the product form end users.

To obtain a legitimate copy, which you know is the complete report with nothing erased or changed, and hence a report with all the original description of pros and cons, please obtain your original and full report straight from www.large-format-printers.org.or other web sites in our network such as www.wide-format-printers.net.

Your only assurance that you have a complete and authentic evaluation which describes all aspects of the product under consideration, benefits as well as deficiencies, is to obtain these reports directly from FLAAR, via the various sites in our network.
